OPS SERIES

LED WALL PACK

DESCRIPTION

The RENO OPS series LED Wall Pack uses industry-leading LED chips and drivers to deliver a quality, energy saving lighting solution. It is also designed for an easy install, directly fitting onto existing electrical boxes, making it the contractor's choice when replacing older high pressure sodium and metal halide wall packs.

FEATURES

- Powder coated black
- Aluminum Alloy & Glass Lens
- 30% Slimmer Design
- Even Light Dispersion and Reduced Glare
- Available Flushmount DC Sensor
- Wide Voltage 120-347V
- Multi CCT & Wattage
- Easy Installation & Maintenance
- Rated Lifetime L70(hrs): >70,000
- Custom colours available
- 5 year warranty
- Operating temperature: -40°F to +104°F (-40°C to +40°C)

APPLICATIONS

-  Commercial Building
-  Exterior Parking
-  School and Hospital
